

Indrajit Bose

Software Developer

✉ indrajit24y@gmail.com ☎ 6290208212 📍 kolkata, India 🌐 LinkedIn 🐙 Github 📁 Portfolio

PROFILE

Software Developer with hands-on experience in application support and API integration. Skilled in troubleshooting critical business applications, analyzing system performance, and resolving technical issues efficiently. Proficient in JavaScript, React, Node.js, with a strong focus on system reliability, user support, and continuous improvement. Adept at collaborating within cross-functional teams and collaborating in agile environments to deliver high-quality solutions. Eager to contribute to dynamic teams and grow through continuous learning.

EDUCATION

B.Tech in Electrical Engineering

08/2018 – 08/2022

Narula Institute of Technology

CGPA : 8.56

PROFESSIONAL EXPERIENCE

Technical Support Associate (L1-Support)

12/2024 – Present | Kolkata, India

Wipro Limited

- Provide L1/L2 production application support for Java-based enterprise systems by diagnosing and resolving incidents related to microservices, RESTful APIs, backend workflows, and system integrations, ensuring high availability and consistent transaction processing across environments.
- Perform in-depth troubleshooting using Java debugging, log analysis, sql queries, and command-line tools to trace request execution paths, analyse API payloads, identify data inconsistencies, and resolve failures across distributed microservices and integrated OSS/BSS platforms. Validate application configurations, service dependencies, and database interactions to prevent recurrence of production issues.
- Resolve 20+ incidents daily within SLA using centralized incident and workflow tracking systems, execute application service provisioning and decommissioning tasks, perform root cause analysis, deploy fixes, and communicate technical updates to clients.

Programmer Analyst

09/2023 – 04/2024 | Kolkata, India

Cognizant Technology Solutions

- Collaborated within a production support team to analyze and resolve 3-4 stories per sprint, leveraging **Angular, Node.js, TypeScript, SQL, and MongoDB**. Utilized Robo3T, Insomnia, MySQL Workbench, and Swagger to debug, test, and optimize applications for cross-browser compatibility and performance.
- Resolved 150+ PROD, UAT, and SIT issues by tracing REST API workflows, analyzing MongoDB/SQL payloads, and performing root-cause analysis; delivered code fixes in Angular, Node.js, JavaScript, and TypeScript, improving platform stability by **20%** and reducing recurring defects by **30%** through targeted unit testing.
- Collaborated with clients and onsite leads to implement feature updates and Node.js version/package upgrades; resolved build and dependency conflicts, raised peer-reviewed pull requests, and coordinated deployments via Azure DevOps—cutting deployment cycle time by **15%** and improving build success rate by **25%**.
- Created 50+ detailed analysis documents, RCA reports, test payloads, and KT materials; conducted biweekly tech presentations and cross-team knowledge sharing, improving offshore team onboarding efficiency by **40%** and accelerating issue resolution turnaround by **20%**.

Programmer Analyst Trainee

08/2022 – 09/2023 | Kolkata, India

Cognizant Technology Solutions

- Contributed as a Node.js Developer managing 3+ user stories per sprint, resolving the build issues by debugging the code, testing applications locally and by pushing fix to SIT, UAT and PREP environments for performance testing thereby reducing API downtime by 40% in PROD .
- Transitioned to a Full-Stack Developer role in production support, leveraging Angular and SQL to manage multiple user stories and bugs per sprint, maintain client applications and resolve daily failed transactions.

TECHNICAL SKILLS

- **LANGUAGES** : Java, C, JavaScript, AJAX, HTML5, CSS3
- **DEVELOPMENT** : React.js, Node.js, Express.js, MongoDB, Git, Github, RESTful APIs
- **TOOLS** : Robo3T, Insomnia, Postman
- **METHODOLOGY** : Agile, Scrum
