*Jr Software Developer*

✉ indrajit24y@gmail.com ☎ 6290208212 📍 kolkata, India 🔗 LinkedIn 🐙 Github 📁 Portfolio

## PROFILE

---

Software Developer with hands-on experience in Web development and API integration. Skilled in JavaScript, React, Node.js, and modern frameworks. Adept at writing clean, efficient code and collaborating in agile environments to deliver high-quality solutions. Eager to contribute to dynamic teams and grow through continuous learning.

## EDUCATION

---

**B.Tech in Electrical Engineering**

08/2018 – 08/2022

**Narula Institute of Technology**

CGPA : 8.56

## PROFESSIONAL EXPERIENCE

---

**Technical Support Associate (L1-Support)**

12/2024 – present | Kolkata, India

**Wipro Limited**

- Deliver real-time technical troubleshooting, fault isolation and provisioning services across telecom circuits, ensuring accurate service restoration, repair, and disconnection.
- Utilize Java, DOS-based network tools, CLI utilities, and circuit-design systems to validate configurations, analyze circuit paths, and remediate workflow failures so requests propagate correctly through downstream OSS/BSS platforms.
- Process and close 20+ incidents per day within SLA, execute provisioning and decommissioning tasks, and initiate or escalate disconnect requests through ticketing systems providing efficient Network Support. Coordinate with engineering teams to resolve network discrepancies, maintain precise documentation, and provide technical updates to clients via call or email.

**Programmer Analyst**

09/2023 – 04/2024 | Kolkata, India

**Cognizant Technology Solutions**

- Collaborated within a production support team to analyze and resolve 3-4 stories per sprint, leveraging **Angular**, **Node.js**, **TypeScript**, **SQL**, and **MongoDB**. Utilized Robo3T, Insomnia, MySQL Workbench, and Swagger to debug, test, and optimize applications for cross-browser compatibility and performance.
- Resolved 150+ PROD, UAT, and SIT issues by tracing REST API workflows, analyzing MongoDB/SQL payloads, and performing root-cause analysis; delivered code fixes in Angular, Node.js, JavaScript, and TypeScript, improving platform stability by **20%** and reducing recurring defects by **30%** through targeted unit testing.
- Collaborated with clients and onsite leads to implement feature updates and Node.js version/package upgrades; resolved build and dependency conflicts, raised peer-reviewed pull requests, and coordinated deployments via Azure DevOps—cutting deployment cycle time by **15%** and improving build success rate by **25%**.
- Created 50+ detailed analysis documents, RCA reports, test payloads, and KT materials; conducted biweekly tech presentations and cross-team knowledge sharing, improving offshore team onboarding efficiency by **40%** and accelerating issue resolution turnaround by **20%**.

**Programmer Analyst Trainee**

08/2022 – 09/2023 | Kolkata, India

**Cognizant Technology Solutions**

- Contributed as a Node.js Developer managing 3+ user stories per sprint, resolving the build issues by debugging the code, testing applications locally and by pushing fix to SIT, UAT and PREP environments for performance testing thereby reducing API downtime by 40% in PROD .
- Transitioned to a Full-Stack Developer role in production support, leveraging Angular and SQL to manage multiple user stories and bugs per sprint, maintain client applications and resolve daily failed transactions.

## TECHNICAL SKILLS

---

- **LANGUAGES** : Java, C, C#, JavaScript, TypeScript, AJAX, HTML5, CSS3, SQL
- **DEVELOPMENT** : React.js, Node.js, Express.js, Ejs, MongoDB, Bootstrap, Material UI, Git, Github, RESTful APIs
- **TOOLS** : Robo3T, Insomnia, Postman, MySQL Workbench
- **METHODOLOGY** : Agile, Scrum
